WAVES  creates a new form of personalized audio that adapts to your brainwave moment-by-moment, creating a therapeutic personalized musical experience.

# HOW DOES WAVES WORK?

WAVES

EEG data captured by  
Emotiv BCI Headset

6 dimensions of  
emotions are  
analyzed

**Attention**  
**Engagement**  
**Interest**  
**Excitement**  
**Relaxation**  
**Stress**

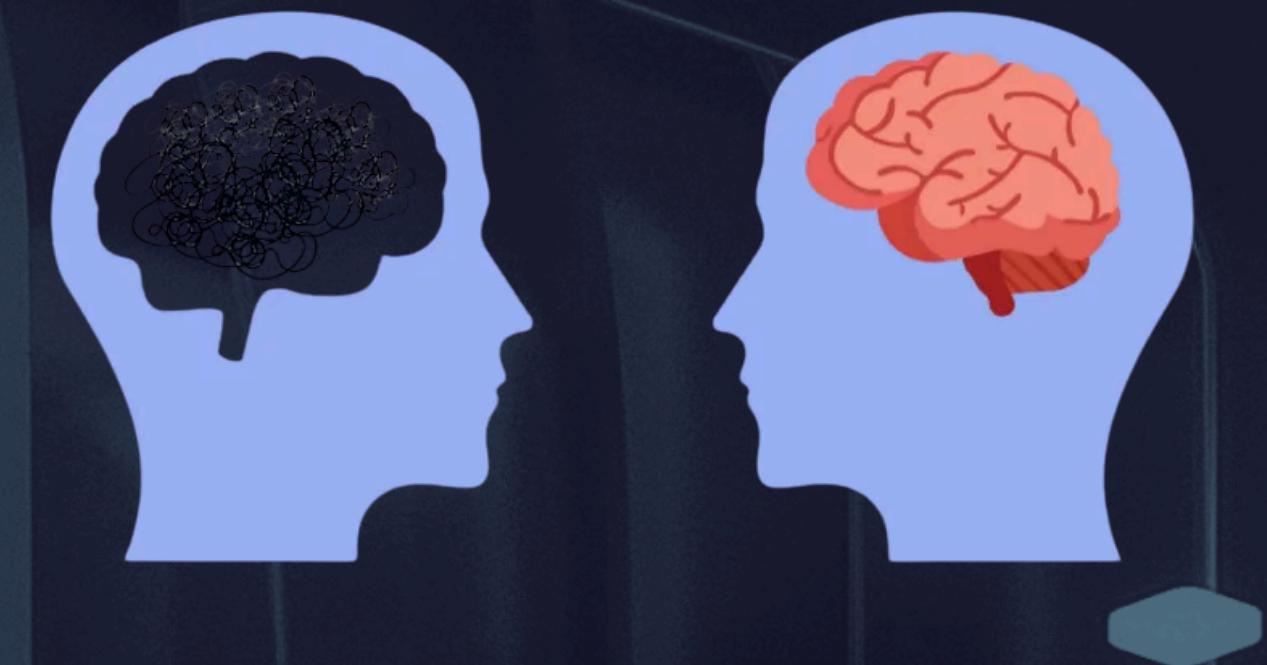

An algorithm that  
**intelligently matches**  
music to the current  
emotional state

Selected music will be  
added to the user's  
Spotify playlist queue.
